TESTIMONIALS.

From the Rev. J. D. Fraser, B.D., Minister of St. Paul's, Winchmore Hill.

Winchmore Hill, October 23rd, 1848.

Dear Sir,—After one winter's experience of your stove in St. Paul's Chapel, I feel no hesitation in saying that it may fairly claim a place in the first rank, among the inventions for warming churches. Before adopting your stove, I made extensive inquiries, both as to the different kinds of stoves in use, and also as to the hot-water system. Inconveniences of one kind or other I found practically experienced under the various systems which I witnessed; but I really have not one perceptibly experienced under the various systems which I witnessed; but I really have not one inconvenience or objection to allege against your stove. I believe it to be more powerful than any other stove of the same dimensions and expense; and it is far more agreeable in a church than any other with which I am acquainted.—I remain, dear Sir, yours truly,

J. D. FRASER.

From the Rev. Dr. Vivian, Minor Canon of St. Paul's, and Rector of St. Peter-le-Poer, Old Broad-street.

Sir,—I have no hesitation in bearing testimony to the excellence of your stoves: In producing an equal degree of warmth over the whole of a large building, and in promoting ventilation, I consider them unrivalled. They are also the most economical I have ever met with. My church, which was notoriously one of the coldest in the metropolis, has, since the introduction of your stove (one of the largest size), about twelve months ago, become perfectly warm and comfortable.

I am, Sir, your faithful and much obliged servant,

J. W. VIVIAN, D.D.

THE STOVE MAY BE SEEN IN OPERATION AT THE MANUFACTORY, AT KING'S COLLEGE (WHERE SEVERAL HAVE BEEN FIXED), AND AT MESSRS. HITCHCOCK AND ROGERS', ST. PAUL'S CHURCHYARD.
